# Adam Chiocca, M.A.T., M.Ed.

**CHIOCCA NETWORK LLC**

**ELL TEACHER, BURLINGTON PUBLIC SCHOOLS**

**ESOL INSTRUCTOR, ROXBURY COMMUNITY COLLEGE**

**Adam Chiocca** and his wife, Maimuna, have two teenage sons. Adam grew up in Plymouth, Mass. and then later on, in Bedford, Mass. and graduated from Bedford High School.

He then went to Penn State, and earned a B.A. in Theatre Arts. At Penn State, Adam sang/performed with the Penn State Glee Club, under the direction of one of the greats, Mr. Bruce Trinkley. He also enjoyed singing with music fraternity, Phi Mu Alpha, and Essence of Joy, the premiere/elite Gospel choir of Penn State, under the direction of the incomparable Dr. Tony Leach.

After singing, dancing, and acting, at Penn State, Adam went to New York City to follow his dreams of being an actor/singer/dancer. He enjoyed the Big Apple for five years, before he and his wife had their first son and moved back to Massachusetts.

Adam is an ESL Teacher, and has been teaching in the ESL classroom for 17 years. He has his middle school and high school professional teaching license in ESL (ELL), and in English, and completed two master's degrees: an M.A.T. (in English, Secondary, with top honors), and an M.Ed. (in Learning & Instruction, Focus: ESL), both from Northeastern University, in Boston, Mass.

Adam enjoys the role of being a father, and loved coaching his boys' teams, in basketball, baseball, soccer and football. He is now on a great mission to build 14 dance studios in 14 major American cities, in order to provide low-cost/affordable dance programs, and dance team experiences for young people of color, and underprivileged youth. You can learn more about his mission-driven company and their projects in his second book, 50 Days to a Better Investment. Adam's books are available for purchase at his website: [chioccanetwork.com](http://chioccanetwork.com).

# Dr. Andrew Medvedovsky

**Dr. Andrew Medvedovsky, MD** is a Pain Medicine Specialist in Ocala, FL. Dr. Medvedovsky has more experience with Headache than other specialists in his area. He is affiliated with medical facilities such as Jefferson Cherry Hill Hospital and Jefferson Cherry Hill Hospital. He is accepting new patients. Be sure to call ahead with Dr. Medvedovsky to book an appointment.

With the constant evolution of the pain management field, Dr. Medvedovsky is excited about the crossover of interventional pain management into minimally invasive surgery. This procedure “will eliminate the need for patients to undergo massive spinal fusions that often time lead to more long-term pain and recovery,” he said.

Comprehensive, individualized treatment plans are put together for every patient with medication management as an important component. “The key is educating patients about alternative treatment options, creating trust between physician and patient and gradually working toward the goals of reducing long term opioid use,” he said.

Developing rapport with the patient, Dr. Medvedovsky notes, is the most important part of providing quality care. “Patients have to trust us and feel confident in our skill level to perform the highly risky procedures that will help them reduce pain and suffering.”

Dr. Medvedovsky feels truly privileged to be a pain management specialist and be entrusted to provide treatments to make patients’ lives better. “The gratitude the patients express is very rewarding,” he said.

Away from the office, Dr. Medvedovsky can be found spending time with his wife and three dogs, exercising, reading, cooking and fishing.

# Brent Bowers

## THE LAND SHARKS

**Brent Bowers** is an investor and coach with a focus on buying and selling vacant land. As an Army Officer with over 8 years of service, Brent was spending a great deal of time away from his family, and he knew he needed to make some changes in order to be more present with his wife and children

His interest in real estate began in 2007 when he purchased his first home, so Brent began exploring real estate investing as a way to support his family while being able to enjoy more time with them as well. In a short amount of time, Brent was able to expand his business, hire a team, and (most importantly) spend quality time with his family while still working hard and helping others.

While Brent invests in many different types of real estate, his favorite investment strategy deals with buying and selling vacant land, and he enjoys sharing his expertise in this area with his coaching clients. Brent chooses to live his life based on Bob Burg's quote, "Your influence is determined by how abundantly you place other people's interests first."

He is passionate about helping other people find success in real estate investing, particularly in land investments.

# Daniel Ng

---

---

**Daniel Ng** started off years ago believing that school was the key to my success so he earned a business and legal education from two countries, the UK and the USA, but it only led to debt and a chapter 7 bankruptcy filing. While he took control of most of his finances, unbeknownst to him tragic events would come that led to the pursuit of financial freedom into a career. Learning from those many mistakes, he shares them over time so others can benefit from my experiences.

Now, he labels himself the Secret Lawyer, and performs tax research for the Tax Law Institute in Washington, DC, earns passive income through YouTube automation, in the process of acquiring a business, attempting to form an agglomeration, and raising capital for real estate deals. The Small Business Administration has been a big part of the business acquisition side. Syndication and pitching for capital has been a huge part of the real estate side.

When he's not working on money, business, and real estate, he works on life. Daniel can be found analyzing stocks for his family portfolio, composing materials for TEDx talk venues, assisting on independent films, and writing this bio while snacking on a wax bloom plum and watching re-runs on Pluto TV. So many re-runs have contributed to procrastinating on finishing this bio for the directory but he takes responsibility for it.

# David Choi

**CEO AND CO-FOUNDER, LEVERAGE COMPANIES**

---

---

**David Choi** is a seasoned real estate professional and serial entrepreneur. Before starting Leverage Companies, David worked for some of the largest development and private equity companies in the country, including Hampshire and Kayne Anderson. David has been involved in the management of private equity portfolios of over \$2 Billion AUM and has personally been involved in thousands of real estate transactions. David is an expert in the syndication of capital and creative financing to assemble deals with unconventional and unique capital structures.

Through his extensive experiences in real estate, on both the debt and equity platforms, he was able to find inefficiencies in the traditional acquisition and deal sourcing processes. In 2017, he began developing a proprietary deal sourcing platform, using a data-driven approach to sourcing and acquiring deals on a national level. Presently, he's the CEO of Leverage Companies and is actively purchasing, renovating, renting, and/or selling over 100 properties a year. David is also one of the founding partners in Leverage Capital Ventures, a Private Mortgage Origination company, originating over \$100+ million in real estate bridge financing in its first year.

David graduated Cum Laude with a B.S. degree in Finance and Real Estate from Rutgers University and is an alumni member of the Rutgers Center of Real Estate Studies.

# Irena Skoda

CEO / FOUNDER

**ŠKODA DESIGN + ARCHITECTURE, PLLC**

---

**Irena Skoda** at the age of 10, living in a 5-story walk-up, 2 bedroom apartment with my family, drawing on a 24" x 18" blackboard I questioned the building I lived in and re-imagined how it could be different.

Seeing the elements I did not wish to live with...a 5 story building without an elevator, electric fuses blowing when 3 appliances were being used, radiators rattling, excessive heat and cold with unpredictable schedules, blazing heat under a roof and smells of paint during renovations all are probably common even today, unfortunately.

As a Design Architect, 25+ years working on apartments, single and multi-family buildings, up to 90-story high-rise towers, I created the culture of our design studio to be focused on the total design process and outcome. In order to give more people an easy way to envision and create architecture that supports the end-user live-work-play experience now and which cradles the possibility that could be.

Irena Škoda is a design architect, interior designer, principal and founder of Škoda Design + Architecture, PLLC based in Long Island City, Queens, NY. Together with her husband Mladen Škoda, her partner and the co-founder of Škoda Painting, a local professional high-end finishing painting contractor, she works with private clients, corporations, and small to mid-sized real estate development companies. Irena Škoda is co-founder of The Designers and Builders Alliance of Long Island, an organization of home-trade professionals that support worthy local charities.

# Joseph Varghese

## FOUNDER SUCCESS CIRCLES

**Joseph John Varghese**, BEng, Certified NeuroStrategist and peak performance coach began Success Circles in 2005. After spending years as an unfulfilled process engineer and process management consultant, Joseph set out on a journey to find his true passion purpose shortly after 9/11. It was then that he saw people going above and beyond to connect and help each other. He made it his mission to participate and build ventures to do just that.

From 2003 to 2005, Joseph directed Metrofly, a successful event-creation company intent on connecting others for a higher purpose while raising money for local non-profits in New York. Through Metrofly, he was able to practice the art of crowdsourcing for each of the “adopted” monthly charity organizations.

He also immersed himself in studying personal development and human potential. As a lifestyle coach now himself, he knows the importance of having a balanced life while hustling as both an entrepreneur and thought leader. When Success Circles began in 2005, he knew how challenging it is to stay focused, engaged, and on target as a business owner and also seeing those same challenges with most entrepreneurs he connected with.

Joseph is passionate about empowering others to stay focused, driven and living their highest potential. For over 15 years, he has been immersed in the science of peak performance, productivity and gamification. As the breakthrough engineer, he is able to transfer his engineering skills to build structures and frameworks for greater freedom, fulfillment, and fun.

In 2015, Joseph launched the 90-Day Momentum Team™ 90-Day Accelerator, powered by Success Circles, which pairs members with both a momentum buddy and an accelerator team. Team members are committed to crowdsource each other’s success through invaluable feedback, monthly sprints, mentoring, resources, referrals, and accountability. It’s the ultimate way to experience the 90 Day Year in action.

# Josiane Mede

## JLUXEHOMES LLC

---

**Josiane Mede** is currently in the healthcare industry and has been for over 13 years now. Throughout her career she has explored different aspects in nursing and is looking forward to trying other niches. She's always had a passion for helping others and it is so rewarding to me to know that I have participated in improving a patient's well being.

At home, she is a single mom of 2 kids, a girl and a boy. Many wonder how she does it all while holding down a job but she just does. She honestly does not know any other way. They are the apple of her eyes and she considers herself very blessed to be their mother. For her, raising these little humans to be nothing less than extraordinary is one of the most difficult jobs one could have but also the most gratifying one as well. In some ways it's made her stronger and is preparing her for the greater things that she is about to encounter in life.

It is only after high school and experiencing the real world on her own when her mindset really began to shift. He's always been told that in order to be successful in life we have to study hard to get into a good school; graduate from University and start your career. So that was her parents painting of leading a victorious life. It was nothing less and nothing more. This limited way of thinking was no longer for her, so she began to envision more for herself.

She always seemed to have an entrepreneurial spirit, a burning desire to succeed but had yet to find the vehicle to take her to the heights she destined to aspire. She knew I did not want to spend her entire life trading her time in for a few hundred dollars. She sees herself to be in such a high position that would allow her to help others on a whole new level because money comes abundantly.

She has been passionate about real estate for many years and believes that there are so many dimensions to explore. During the pandemic, she really decided to take action and take it step by step and rely on faith that she would figure things out along the way. It was ok that she didn't know what steps laid ahead but as long as action was taken, she would be even closer to accomplishing her goals. After many education sessions on real estate investing , it became evident to her that she had developed a love for commercial real estate and development, as the opportunities are endless. By merging her love for multi-family real estate, sophistication and high quality living, She created a company by the name of JLuxeHomes LLC. that caters to high end apartment buildings and provides its tenants with a superior way of living.

This world is filled with possibilities, the sky is really our limit if we just believe that we can achieve anything!

# Patrick Precourt

## COACH AND MENTOR PRECOURT ENTERPRISES

**Patrick Precourt** was born and raised in Connecticut, Patrick spent his early 20's working for their family home inspection company while living his passion, competing in Rugby both here in the states and abroad. This is also when Patrick began his real estate investment career, investing in his first property when he was 25 years old.

By the late 90's, Patrick's appetite for investing had exploded and he was on his way in a career as a professional real estate investor.

His passion also flowed over into teaching and Patrick started teaching his niche in investment. By 2004, he was speaking from the stage on a number of entrepreneurial topics including real estate investment, personal development as well as providing coaching and mentoring programs.

Patrick opened North Shore Enterprises, a professional real estate investment company specializing in pre-foreclosure and short sales at the beginning of 2000. Since then, his team has completed nearly 1000 short sales.

Patrick's expertise in coaching and mentoring had hit a new level in 2008 when he partnered to provide fulfillment service to a company that grew to generate over 75m in annual sales.

Also in 2008, Patrick co-authored the highly acclaimed book "Wake Up and Live The Life You Love: The Power of Team." You can find the book on Amazon or Google Books.

In 2012, Patrick opened The Cage in Rocky Hill, CT, a lifestyle fitness center that embraces the heart and culture of martial arts while providing the community a state of the art facility for achieving fitness goals.

Patrick is a multi-talented entrepreneur – an industry leader in personal development coaching, marketing, business development, speaking and influencing and a master of sales and leadership.

Patrick has turned his focus to running an extremely successful personal development mentorship program with over 800 elite students across the country. His most innate skill set is to pull the best out of you – to strip down the shell, drive right to the core and uncover what it is that truly drives you. Something that may have been buried so long you hardly recognize it.

Patrick is known across the industry as the quiet guru – the guy who speaks with his actions and documented results, not with long web copy, fancy marketing tricks and copycat tactics.

He tells it the way it is – an unedited opinion of a self-made entrepreneur and insanely successful business owner.

His beliefs in "The Power of Team" and his refusal to empower the misconception that competition is opposition have founded and driven his unarguable and unequalled success in his numerous entrepreneurial ventures.

# Dr. Robert White

## FUNCTIONAL MEDICINE / CHIROPRACTOR AT ADVANCED INTEGRATED HEALTH

**Dr. Bob** was born and raised in Florham Park, New Jersey. He received his degree in Mechanical Engineering from the New Jersey Institute of Technology and had a successful landscaping business upon graduating.

Dr. Bob became interested in wholistic health in his mid-twenties after an encounter with an alternative health professional resolved the painful, persistent ear infections that he had struggled with his entire childhood.

This profound experience made him rethink what he wanted to do as a career. He sold his business and returned to school, eager to help others just like he had been helped.

Dr. Bob loved the philosophy of vitalism, which teaches about the incredible, innate intelligence of our bodies and its power to self-heal when given the opportunity.

His interest in Functional Medicine using whole food supplements was inspired by his desire to help his mom. Unable to solve her raging blood sugar problem with conventional therapies, naturally she looked to her son for help.

He successfully helped her avoid the chronic condition of diabetes, which inspired him to learn more about advanced nutrition and cutting-edge testing to discover the root causes of modern-day disease.

"I feel incredibly fortunate every day to be able to help others function better and increase the self-healing potential of their bodies without the use of prescription medicines or risky surgery."

In his spare time, Dr. Bob enjoys working out, reading, playing hockey, grilling for friends and family, and spending quality time with his lovely wife, Maria and their two cats, Luke and Leia.

# Sean Flannery

**CEO/OWNER**

**FLANNERY ENTERPRISES**

---

**Sean Flannery's** goal is to work with inspired people to create a product or company that has a unique quality in today's market. With a diverse background I find myself easily able to work with finance but also sales, manufacturing and design.

His vast network allows for numerous business opportunities however, sales and product development is a specialty. Developing strong teams to support the products created is a task I have performed for 23 years.

He has worked around the globe and understand the thought process behind numerous cultures in turn allowing me to sell, design and manufacture on a global basis. In the end it's all about the adventure, the pure passion in doing what you love.

For me that is development. Products owned and developed include Camileon Heels, Grip Buddy, Aura technologies, Splash Pools, G Resorts, Chill Shot, Sheelens, and Distinctive Properties. Licensees developed: Levis Loungewear, 310, Roccawear Jrs, Dada, Antonio Ansolli, Kappa and hundreds of consulting projects along the way.

# Valerie S. Reid

**WILLOW ENTERPRISES LLC**

---

---

**Valerie Reid** is a dynamic business leader and entrepreneur. Her career has spanned a multitude of sectors - from public service to academia to business consulting and ownership. She is a sought-after adviser to companies and organizations, large and small, for her expertise in strategy, operations, process efficiencies, and technology in combination with her warm and engaging style. She understands people. From her start in business as an Economics major to achieving a Ph.D. from the London School of Economics, Ms. Reid has shown a desire and ability to understand problems and find solutions. She is the founder of Willow Enterprises LLC which provides a much-needed digital platform, Simple Cremation Services ([www.simplecremationusa.com](http://www.simplecremationusa.com)), serving families seeking an online cremation arrangement with funeral homes across the USA.

# Zachariah Dugger

**ABTZ PROPERTIES, LLC**

**FORMER OWNER OF BRAINTRUST BEHAVIORAL HEALTH, LLC**

**Zach Dugger** was born outside of Denver, CO, but he reports having no memories of that epic time of his life having moved to Michigan at the age of 4. He grew up in Midland and attended Central Michigan University as an undergraduate student where he studied psychology and German. Why German? No particular reason, but he still can hold up his end of a conversation. He studied Applied Behavior Analysis at Western Michigan University where he and his wife fell in love with the town of Kalamazoo (yes, there really is a Kalamazoo). He loves his wife and two children, and he is very active in his local church. He has a new resolve to be a Kingdom Builder helping finance the ministry through business.

Zach is clinically trained as a Behavior Analyst and Master's level Behavior Psychologist. He founded Braintrust Behavioral Health, LLC in 2013 to provide both home and center based ABA therapy for children with autism. He managed this startup while still working for a Rehabilitation company in the area of Traumatic Brain Injury. Though he loved both areas of specialization, he transitioned out of his W2 job in 2014 to grow the therapy business from a single employee (himself) to over 150 employees. Braintrust provided services in 8+ counties throughout Southwest Michigan in family homes and in 5 individual clinic locations. He sold this business in 2021 to a national organization that is carrying on the mission and vision.

Zach is now pivoting into the area of real estate investment. He owns and manages two commercial properties and is currently a limited partner in 9 different syndication deals, which include multifamily housing, hotels, carwashes, and even farmland as assets. He loves networking with others and finding like-minded individuals that share similar passions. His current goal is to become an active General Partner in the area of multifamily housing. Unrelated to business, he also has a renewed aspiration to finish a fiction novel and start/complete several other writing projects on the docket.
